VII International Forum & Exhibition of Nuclear Industry Suppliers Atomex 2015

About ATOMEX

The International Forum & Exhibition ATOMEX is the single specialized area in Moscow used to showcase the nuclear industry's achievements and ensure information transparency of the Rosatom State Atomic Energy Corporation, which opens up opportunities for suppliers to establish direct and open dialogue and cooperation with nuclear industry customers.

The Rosatom State Corporation brings together more than 350 enterprises and scientific organizations developing high-tech products and needing reliable suppliers of quality products and services.

Format of the Forum includes the **thematic exhibition** and a broad **business program**.

VII International Forum & Exhibition of Nuclear Industry Suppliers Atomex 2015

About ATOMEX

ATOMEX is a unique tool for promoting innovations, products and services, both in the form of **Exhibition stands** and the **Business Program** presentations for companies interested in fruitful cooperation with nuclear industry enterprises.

During the last three years ROSATOM has doubled the volume of its portfolio of foreign orders.

Individual business meetings in the B2B format in the Matchmaking system will be organized for suppliers and representatives of the main companies in the nuclear industry during the Forum & Exhibition.

Forum & Exhibition Topics
